

CURRICULUM VITAE

Personal Details

Name: Eytan Ezion
Address: Kibbutz Kabri, 2512000, Israel
Date of birth: April 28th, 1951
Place of birth: Nahariya, Israel
Telephone: Work: +972-52-8011288 Home: +972-4-9952288
Fax: +972-4-9952689
E-mail: Ezion@cabri.org.il, maim@kabri.biz
Marital status: married + 3 (grown-up)
Mother tongue: Hebrew
Additional languages: English, Dutch, some Thai

Education

2012 Mergers and Acquisitions – M&A Leaders Forum, Herzliya
2010-2011 Soil & Ground Management - Hebrew University
2009-2010 Project Management – Technion University, Haifa - Israel
2009 Management and Supervision in Water Systems – Mishlav Academy, Tel Aviv
2007 Drinking Water Supply - Ministry of Health, Tel Aviv
2004 Treatment of Drinking Water – Ministry of Health, Tel Aviv
2002-2003 Irrigation with Low Quality Water - Ruppin Academy
2001 Water Desalination Technologies – Ruppin Academy
2000 English for the Business Environment – Haifa University
1999-2000 Executive Business Management – Haifa University (with honors)
1997-1998 Management in Computer Applications – Technion University, Haifa
1996-1997 Computer Application, PC Technology, Haifa University
1986-1996 Irrigation and Water Technologies - Ruppin Academy - Israel
1963-1969 High school, Kibbutz Kabri, Israel

Professional Experience

1986-current Manager of Water and Irrigation Systems Department, Kibbutz Kabri, Israel
1992-current Management, supervision and consulting in establishment of water & **irrigation systems, Agriculture**, maintenance of operational systems and staff training in **different countries** (see below)

Academic Achievements

2015 VISITING PROFESSOR at the Institute of Agricultural Engineering, Anhui Academy of Agricultural Sciences, Anhui, China
2007 Teaching Advanced Water and Irrigation Technologies at the College of Galilee, Israel
2003 Directors in Corporations and Governmental Firms – Haifa University, Israel
2001 Executive Business Management (CUM LAUDE) – Haifa University, Israel
2001 Import, Export and International Trading - Commercial Chamber, State of Israel
1989 Hydraulic and Electronic Control of Irrigation Systems – Ruppin Academy, Israel
Training in courses of irrigation and water systems, modern agriculture, innovations, environment protection, conferences, in China
2020 - Shandong - establishing modern green house and guide local staff
2019 – China-Israel Expo Conference, Huhhot, Inner Mongolia - Agricultural Water Technologies
2019 – Shenzhen – Conference, Agricultural Technologies and Agricultural Water Technologies
2019 – Nanjing – Conference, Nanjing-Israel Technology Forum, Agricultural Technologies and Agricultural Water Technologies
2018 – Guiyang - establishing modern green house and guide local staff
2018 – Chengdu – modern greenhouse - improve and guide local staff

- 2018 – Gansu – Conference, The 24th China Lanzhou Fairs for Investment and Trade – Gansu Academy of Agricultural and Sciences
- 2018 – Kunming - establishing modern green house
- 2018 – Anshun - establishing modern green house and guide local staff
- 2018 – Jilin - promoting highly efficient agriculture and environment ecology friendly, and protection of environment
- 2018 – Gansu – modern and innovations in irrigation & use of water in agriculture
- 2017 - Guangdong - promoting high level efficient irrigation in agriculture and environment ecology, protection
- 2016 – Anhui - water saving irrigation systems in agriculture and efficient use of water
- 2016 – Hunan - water saving irrigation systems in agriculture and efficient use of water
- 2015 – Shandong - application of Drip Irrigation
- 2015 - Ningxia - fertigation Application of Drip Irrigation
- 2014 - Anhui - trickle irrigation experiment promotion
- 2013 - Anhui - water saving irrigation systems in agriculture and efficient use of water
- 2012 - Anhui – water-saving agriculture and agricultural biotechnology
- 2010 - Anhui - water saving irrigation systems in agriculture and efficient use of water
- 2010 - Hubei - technological improvement Irrigation System and structure design of Lateral Irrigation
- 2009 - Jiangxi - water saving irrigation systems in agriculture and efficient use of water
- 2008 - Sichuan - anti-Drought and Water-Saving agriculture technology introduction and demonstration
- 2006 - Jiangxi - comprehensive control of water and soil conservation
- 2005 - Heilongjiang – Irrigation it's design and technologies of water saving
- 2004 - Xinjiang - training Course on Water Saving Irrigation and efficient use of water and fertilizer
- 2004 - Gansu - water saving irrigation systems in agriculture and efficient use of water
- 2003 - Hubei - water saving irrigation systems in agriculture and efficient use of water
- 2002 - Shandong + Xinjiang - water saving irrigation systems in agriculture
- 2002 - Shandong - water saving irrigation systems in agriculture and efficient use of water
- 2001 - Hubei - water saving irrigation systems in agriculture and efficient use of water
- 2001 - Liaoning - water saving irrigation systems in agriculture and efficient use of water
- 2000 - Liaoning - water saving irrigation systems in agriculture and efficient use of water
- 2000 - Shandong – water saving irrigation systems in agriculture and efficient use of water

International experience

- 2018 - Management and supervision of establishment of new irrigation systems and staff training, Green House - Avchazia - Russia
- 2017-2018: Management and supervision of establishment of new irrigation systems and staff training, Green House - Avchazia - Russia
- 2016: Operation and commissioning of new water supply systems, environment protection, Angola (Africa)
- 2014-2015: Operation and commissioning of new water supply systems, Angola (Africa)
- 2013: Management and supervision of establishment of new irrigation systems and staff training, UAE
- 2013: Management and supervision of establishment of new irrigation systems and staff training, apple plantations, Serbia
- 2013: Examine, along with owners and officials, about irrigation possibilities and different kinds of plantations, Guinea (Africa)
- 2012: Examine, along with owners and officials, about irrigation possibilities, different kinds of vegetables, Tanzania (Africa)
- 2012: Management and supervision on establishing a new irrigation system and staff training, different kinds of vegetables in open fields, Ghana (Africa)
- 2011: Discussions with owners and officials about irrigation possibilities, Guinea (Africa)
- 2009: Management and supervision on establishing new irrigation systems and staff training, wine yards, Croatia
- 2008: Management and supervision on establishing new irrigation systems, maintenance of operative systems and staff training, different kinds of vegetables in greenhouses, wine yards, Serbia, Bosnia and Macedonia

- 2007: Management and supervision on establishing a new irrigation system and staff training, olive plantation, Turkey
- 2006: Management and supervision on establishing a new irrigation system and staff training, wine yards, Bosnia
- 2005: Management and supervision establishment of irrigation system, maintenance of existing systems and staff training, different vegetables in greenhouses, Serbia
- 2004: Management and supervision establishment of an irrigation system, maintenance of existing systems and staff training, tomato fields, Turkmenistan
- 2003: Management and supervision establishment of an irrigation system and staff training, tomato fields, Turkmenistan
- 2001: Management and supervision establishment of an irrigation system and staff training, wine yards, Croatia
- 2000: Management and supervision establishment of an irrigation system and staff training, wine yards, Macedonia
- 1999: Management and supervision establishment of an irrigation system and staff training, tea plantations and vegetables in open fields and green houses, Sri Lanka
- 1999: Management and supervision of establishment of irrigation systems and maintenance of existing systems, staff training, different plantations, Thailand
- 1998: Management and supervision of establishment of irrigation systems and maintenance of existing systems, staff training, different plantations, Thailand
- 1997: Management and supervision of establishment of irrigation systems and maintenance of existing systems, staff training, different crops, Thailand
- 1996: Supervision of establishment of irrigation system, maintenance of existing systems, and teaching in the School for Agricultural Instructors, Thailand
- 1995: Supervision of establishment of an irrigation system and staff training, palm oil and subtropics plantations, Thailand
- 1994: Supervision establishment of an irrigation system and staff training, palm oil, Thailand
- 1992: Supervision establishment of an irrigation system and staff training, banana plantation, Ivory Coast

Additional Information

For the last 30 years, I have been responsible for the **water supply and agricultural irrigation systems** in Kibbutz Kabri, Israel, including the management and **operation of irrigation systems for various crops, Agriculture new projects**, and drink water supply, instruction of people working in the field of agriculture, irrigation and environment protection, and correspondence with experts in these subjects in and outside of the region and the country.

In the course of these years I have done a variety of studies, attended exhibitions and conferences on the subject both in Israel and abroad, and in recent years I went abroad on a multi-annual basis to establish, supervise, bring up to date innovations, help in efficient irrigation & water saving systems, Agriculture new projects etc.
